

Environmental Epigenetic Research Excellence Fund

ESTABLISHMENT OF CURRENT USE FUND

There is hereby established with the Washington State University Foundation the Environmental Epigenetic Research Excellence Fund (“Fund”). Additional gifts may be made under the terms of this agreement.

BACKGROUND

This gift is to be used solely for the support of research in the laboratory of Dr. Michael K. Skinner in the School of Biological Sciences at Washington State University. Funds will provide direct support for Dr. Skinner’s research in the area of environmental toxicology and epigenetics.

PROCEDURES

The Washington State University Foundation (“WSU Foundation”) shall initiate a separate project and account number in the name of the Fund hereunder, which shall be known as the “Environmental Epigenetic Research Excellence Fund”. The Fund shall be established with Washington State University. Any and all contributions designated for this Fund shall be credited to the aforesaid project number. All such contributions shall be administered in the manner set forth herein, and Fund expenditures shall be made in accordance with the provisions specified in this document.

Any and all gifts and contributions received for credit to this Fund shall be available for uses and purposes stated herein.

USES AND PURPOSES

The principal of this fund shall be used to enhance research and scholarship in the area of environmental epigenetics in the School of Biological Sciences, specifically research on environmental toxicology and epigenetics in the lab currently run by Dr. Michael K. Skinner.

None of the funds shall be used for any university administrative purpose other than direct support for environmental toxicology and epigenetics.

Any program or project supported hereunder must be consistent with the tax-deductible status of gifts made to the Washington State University Foundation.
